Income inequality in the United States has increased significantly since the 1970s after several decades of stability, meaning the share of the nation's income received by higher income households has increased. This trend is evident with income measured both before taxes (market income) as well as after taxes and transfer payments. Income inequality has fluctuated considerably since ...

Georgism, also called geoism and single tax (archaic), is an economic philosophy holding that, while people should own the value they produce themselves, economic value derived from land (including natural resources and natural opportunities) should belong equally to all members of society. Developed from the writings of the economist and social reformer Henry George, the Georgist paradigm ...

In January and February of every new year, I get numerous emails from people who have settled unsecured debts during the prior calendar year. They are surprised to find 1099-C forms in their mailboxes, which report to the IRS the forgiven debt balances as ordinary income. Many consumers are totally shocked to find they might owe taxes on cancelled debt balances.
