

cablegation systems for irrigation pdf

Lincoln, NE NE Leaflet No. 12 Saves labor Cuts energy costs Better water ITmanagement Cablegation An Automated Furrow Irrigation System u.s. Department of Agriculture Soil

Soil Conservation NE Leaflet No. 12 Cablegation

Because cablegation utilizes a single line for both conveyance and distribution of the water and because pipeline costs are the main cost of automated surface irrigation systems, cablegation is generally the least expensive type of automated surface system.

Cablegation: Automated Supply for Surface Irrigation

Distributed to depository libraries in microfiche. Cablegation systems for irrigation : description, design, installation, and performance

Cablegation systems for irrigation : description, design

Irrigation Water Management Water management is an important element of irrigated crop production. Efficient irrigation systems and water management practices can help maintain farm profitability in an era of limited, higher-cost water supplies. ... Surge-flow and cablegation systems are designed to

Irrigation Water Management

Border Cablegation System Design Thomas J. Trout, Dennis C. Kincaid MEMBER MEMBER ASAE ASAE ABSTRACT Cablegation semi-automated irrigation systems can effectively apply water to borders and basins. A buried pipeline conveys water to riser outlets on each border. The system is designed hydraulically such that

Border Cablegation System Design - USDA

Cablegation is a simple system for automating surface irrigation in small- and medium-sized fields using a gated pipe. In this work, a Programmable Logic Control, PLC, was used to develop an ...

Development of an adaptive surface irrigation system

Cablegation Cablegation is an automated surface irrigation system that uses a travelling plug inside a gated pipe delivery system. The plug restricts ... Comparison of irrigation systems in relation to site and situation factors Improved surface systems Site and situation factors Redesigned surface Level basins Intermittent

Irrigation Systems for Idaho Agriculture

Various methods and types of control equipment for automating border and basin irrigation are described. Mechanical gates include dual function turnout gates that both open and close and a trapezoidal center-of-pressure check gate for a lined ditch. Cablegation systems are used to irrigate either borders or basins with or without cutback.

Automation of border and basin irrigation - NWISRL

Development of an adaptive surface irrigation system ... cablegation surface irrigation system and control the various stages of the irrigation event. ... irrigation system performance (Oyonarte et al. 2002). Due to this variability, it is necessary to establish irrigation

Development of an adaptive surface irrigation system

Irrigation systems should be a relevant agent to give solutions to the increasing demand of food, and to the development, sustainability and productivity of the agricultural sector.

(PDF) Design and management of irrigation systems
