Deformation in continuum mechanics is the transformation of a body from a reference configuration to a current configuration. A configuration is a set containing the positions of all particles of the body. A deformation may be caused by external loads, body forces (such as gravity or electromagnetic forces), or changes in temperature, moisture content, or chemical reactions, etc.

The Hitchhiker's Guide to the Galaxy by Douglas Adams "eventually continued by Eoin Colfer after Douglas' death" started as a comedy radio play on the BBC in 1978 and expanded into a TV series, a series of novels, and a feature film. The story follows the adventures of Arthur Dent, the last human who hitched a ride off Earth moments before it was destroyed to make way for a hyperspace bypass.
