The "classic" view of Information systems found in the textbooks in the 1980s was a pyramid of systems that reflected the hierarchy of the organization, usually transaction processing systems at the bottom of the pyramid, followed by management information systems, decision support systems, and ending with executive information systems at the top. . Although the pyramid model remains useful ...

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time. A project is a temporary endeavor designed to produce a unique product, service or result with a defined beginning and end (usually time-constrained, and often constrained by funding or staffing ...

When we talk about mass incarceration as a crisis, we often think of the U.S. as the benchmark for disturbing trends in imprisonment. And it is: Black men are six times more likely to be imprisoned than white men in the States. The U.S. is the world's leader in incarceration rates per capita, with a total of 2.2 million people in prisons and jails in 2015—a 500 percent increase since 1975.
