Globalization or globalisation is the process of interaction and integration between people, companies, and governments worldwide. Globalization has grown due to advances in transportation and communication technology. With increased global interactions comes the growth of international trade, ideas, and culture. Globalization is primarily an economic process of interaction and integration that ...

Climate change adaptation is a response to global warming (also known as "climate change" or "anthropogenic climate change"), that seeks to reduce the vulnerability of social and biological systems to relatively sudden change and thus offset the effects of global warming. Even if emissions are stabilized relatively soon, global warming and its effects should last many years, and adaptation ...

Nationalist agendas are now aggressively being emphasized over global ones. My colleague Ken Mehlman and I laid this theme out in detail in our January 2018 piece (You Can’t Always Get What You Want), but the speed and the magnitude of recent actions have caught even us off guard. Without question, President Trump in the United States is ushering in a different era as it relates to global trade.
