Saturn is the sixth planet from the Sun and the second-largest in the Solar System, after Jupiter. It is a gas giant with an average radius about nine times that of Earth. It has only one-eighth the average density of Earth, but with its larger volume Saturn is over 95 times more massive. Saturn is named after the Roman god of agriculture; its astronomical symbol (♄) represents the god's sickle.

Through NSTA, you'll find leading resources for excellence in teaching and learning and experience growth through robust professional development. Plus you'll meet colleagues across all science disciplines, all grade bands and teaching stages, from the newest teacher to the veteran administrator, who share a passion for science education.

### **NSTA Journal Article**

This discipline is the science of celestial objects and phenomena that originate outside the Earth's atmosphere. It is concerned with the evolution, physics, chemistry, meteorology, and motion of celestial objects, as well as the formation and development of the universe. Astronomy includes the examination, study and modeling of stars, planets, comets, galaxies and the cosmos.

One of the most fundamental doctrines held dear by Christians is God's creation of the world and all living creatures. Yet among evangelicals, an ongoing controversy exists regarding the age of the earth and when God created the universe and life. Indeed, the "young-earth" vs. "old-earth" debate is one of the most polarizing and divisive issues within the Christian community.

### **A Biblical Case for Old-Earth Creationism**

Earth's water is always in movement, and the natural water cycle, also known as the hydrologic cycle, describes the continuous movement of water on, above, and below the surface of the Earth.

Statement on climate change from 18 scientific associations "Observations throughout the world make it clear that climate change is occurring, and rigorous scientific research demonstrates that the greenhouse gases emitted by human activities are the primary driver."

### **Scientific Consensus | Facts â€œ Climate Change: Vital Signs**

SLAPSTICK COMEDY: Low comedy in which humor depends almost entirely on physical actions and sight gags. The antics of the three stooges and the modern fourth stooge, Adam Sandler, often fall into this category.
