Basic Genetics

Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems. In contrast to biochemistry, which involves the study of the chemistry of biomolecules and regulation of biochemical ...

Ancient rock paintings, which date back 5000 years, have been found in the northern part of Somalia. These engravings depict early life in the territory. The most famous of these is the Laas Geel complex. It contains some of the earliest known rock art on the African continent and features many elaborate pastoralist sketches of animal and human figures.
