Problems and Problem Solving. What is a problem? In common language, a problem is an unpleasant situation, a difficulty. But in education the first definition in Webster's Dictionary "a question raised for inquiry, consideration, or solution" is a common meaning.. More generally in education, it can be useful to define problem broadly "as any situation, in any area of life, where ...

12 Rules for Life is a collection of life principles that, if followed, are meant to improve your life. It reached the #1 spot on Amazon's bestsellers list, and clearly it resonates with a lot of people. Its author (Jordan Peterson, a clinical psychologist and U Toronto professor) argues that modern secularism and reliance on science has left a void in answers to important existential ...

The previous article in the Ethos, Pathos, and Logos series defined logos and described why logical arguments are so important for your presentations.. Okay, that's all very good in theory, but do we need to be logical masters to build high logos? No, not at all. In this article, we examine simple techniques you can use in your presentations to be more persuasive by improving your logos.
