Planning and designing library buildings and services. Books, journal articles and online resources on key aspects of library planning, service design, design and building, and designing for inclusion.

Planning and designing library buildings and services

Universal design is the design of buildings, products or environments to make them accessible to all people, regardless of age, disability or other factors.. The term "universal design" was coined by the architect Ronald Mace to describe the concept of designing all products and the built environment to be aesthetic and usable to the greatest extent possible by everyone, regardless of their ...

In education, a curriculum (/ k É™ Ę r Éª k j ĘŠ l É™ m /; plural: curricula / k É™ Ę r Éª k j ĘŠ l É™ / or curriculums) is broadly defined as the totality of student experiences that occur in the educational process. The term often refers specifically to a planned sequence of instruction, or to a view of the student's experiences in terms of the educator's or school's instructional goals.
