

interior planning and design pdf

Interior design is the art and science of enhancing the interior of a building to achieve a healthier and more aesthetically pleasing environment for the people using the space. An interior designer is someone who plans, researches, coordinates, and manages such projects. Interior design is a multifaceted profession that includes conceptual development, space planning, site inspections ...

The School of Architecture and Interior Design (SAID) at the University of Cincinnati prepares students for critical practice. Our students engage with the principles, traditions, and requirements of building in all its aspects, interior and exterior design.

Design, Architecture, Art, and Planning

Interior Architecture is the design of a building or shelter inside out, type home that can be fixed. It can also be the initial design and plan for use, then later redesign to accommodate a changed purpose, or a significantly revised design for adaptive reuse of the building shell. The latter is often part of sustainable architecture practices, conserving resources through "recycling" a ...
