Using this Data Site. Welcome to the International Relations Data Site, created and maintained by Paul Hensel of the Department of Political Science at the University of North Texas. This site includes seven pages of links to on-line data resources for the serious international relations scholar, as well as the introduction page that you are currently reading.

Paul Hensel's International Relations Data Site

The balance of power theory in international relations suggests that national security is enhanced when military capability is distributed so that no one state is strong enough to dominate all others. If one state becomes much stronger than others, the theory predicts that it will take advantage of its strength and attack weaker neighbors, thereby providing an incentive for those threatened to ...
