The law of the United States comprises many levels of codified and uncoded forms of law, of which the most important is the United States Constitution, the foundation of the federal government of the United

States. The Constitution sets out the boundaries of federal law, which consists of acts of Congress, treaties ratified by the Senate, regulations promulgated by the executive branch, and ...

Abstract. In this theoretical paper, motives for CSR are considered. An underlying assumption is that the commercial imperative is not the sole driver of CSR decision-making in private sector companies, but that the formal adoption and implementation of CSR by corporations could be associated with the changing personal values of individual managers.

Georgism, also called geoism and single tax (archaic), is an economic philosophy holding that, while people should own the value they produce themselves, economic value derived from land (often including natural resources and natural opportunities) should belong equally to all members of society. Developed from the writings of the economist and social reformer Henry George, the Georgist ...
