Financial crime detection has become an important priority for banks. Fraud is increasing dramatically with the expansion of modern technology and global communication, resulting in substantial losses to the businesses []. Recently, HSBC was fined by the US authorities a large sum of \$1.9bn (£1.2bn) in a settlement over money laundering, the largest paid in such a case [2, 3].

Solution architecture is a practice of defining and describing an architecture of a system delivered in context of a specific solution and as such it may encompass description of an entire system or only its specific parts. Definition of a solution architecture is typically led by a solution architect. There are many definitions of "solution architecture" in the industry but no official ...
