Statistical Evidence in Litigation - Will Yancey

Statistics is a branch of mathematics dealing with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...

Workplace bullying is repeated and unreasonable behaviour directed towards a worker or group of workers that creates a risk to health and safety.. It is a risk to health and safety because it may affect the mental and physical health of workers. Taking steps to prevent it from occurring and responding quickly if it does is the best way to deal with workplace bullying.
